TERMS & CONDITIONS

RECOVERY REPUBLIC – Platform Use, Product Participation, Liquidity Structure and Recovery Policy

1. Purpose

RECOVERY REPUBLIC ("the Company", "we", "us", "our"), operated by **RECOVERY GLOBAL LTD.**, provides digital technology services and decentralized tools operating within the **DeFi (Decentralized Finance) ecosystem**.

The purpose of the platform is to offer users ("Clients", "Affiliates", or "Users") access to technological infrastructure that enables interaction with **liquidity pools, RCV digital balances, and token-based services** through a hybrid **Web2/Web3 interface**.

The Company **does not provide financial products, investment services, portfolio management, or guaranteed returns**.

All services are provided as **technology access tools only**.

---

2. Nature of the Service

Users acknowledge and accept that all RECOVERY REPUBLIC services operate as **non-custodial technology platforms**.

The Company:

- Does **not hold, manage, or control user funds**
- Does **not operate as a broker, investment firm, or financial advisor**
- Does **not guarantee any profits or financial outcomes**

All operations are executed through **public blockchain smart contracts and decentralized infrastructure**.

Users maintain **full custody and control of their digital assets** through their **personal self-custodied wallets** connected to the platform.

Platform performance depends entirely on **market conditions, blockchain networks, and decentralized protocol behavior**.

---

3. Registration and Use

To access the services, Users must:

- Be **at least 18 years old**
- Provide **accurate and truthful information**
- Explicitly **accept these Terms & Conditions**

The Company reserves the right, at its sole discretion, to **suspend, restrict, or terminate accounts** in cases of:

- Fraud
- Misuse of the platform
- Violation of these Terms
- Suspicious or unlawful activity

---

4. Product Structure and Participation Period

Certain products available through the platform operate with an **intended operational participation cycle of up to twenty-four (24) months**.

During this period, participants may receive **daily rewards generated from operational market activities associated with liquidity strategies used by the system**.

Participation in such products implies that the User understands and accepts the **operational timeframe required for the system's strategies to function efficiently**.

Rewards are generated from operational activities and **are not guaranteed**.

---

5. Liquidity Allocation

Upon participation in applicable products, the User's allocated capital may be integrated into **structured liquidity pools** forming part of the platform's operational framework.

These liquidity pools may be supported through **external technology or liquidity providers**, including but not limited to **EASY**, responsible for executing certain technical or operational functions.

Liquidity structures operate under **time-dependent allocation strategies and liquidity commitments** designed to support the intended operational cycle.

---

6. Early Capital Withdrawal (Recovery)

Users may request **early release of their principal capital** through a process referred to as **Recovery**.

However, requesting withdrawal **before completion of the intended operational cycle (up to 24 months)** requires the system to:

- Unwind liquidity positions
- Rebalance liquidity allocations
- Restructure capital from operational pools

These processes may generate **operational costs and liquidity restructuring adjustments**.

---

7. Operational Adjustment for Early Withdrawal

Due to the restructuring required to release liquidity before the intended cycle ends, **early withdrawal requests may be subject to an operational adjustment of up to fifty-two percent (52%) of the principal capital**.

This adjustment reflects the **technical and liquidity impact of prematurely releasing capital allocated for long-term operational strategies**.

By submitting a **Recovery request**, the User acknowledges and accepts this possible adjustment.

---

8. Affiliate and Reward Programs

The platform may include **affiliate reward structures, leadership bonuses, or incentive pools** related to the promotion or sale of digital services or licenses.

These programs:

- **Are not investment programs**
- **Do not represent financial instruments**
- **Do not guarantee income**

Reward structures, percentages, and bonus pools **may change or be discontinued at any time without prior notice**.

---
